SUMMARY

Undergraduate student pursuing a Bachelor of Technology degree with a strong interest in technology and software development. Proficient in computer science principles and coding, actively exploring diverse frameworks and technology stacks. Committed to continuous learning and skill enhancement. Seeks opportunities to apply academic knowledge and practical skills in a professional environment to contribute to projects and advance personal and professional development.

EDUCATION

2022 - Present	Bachelor's Degree at **KIIT UNIVERSITY**	(GPA: 8.37)
2020 - 2022	Class 12th CBSE Board at **St. John Secondary School**	(78.6%)
2012 - 2021	Class 10th CBSE Board at **DAV Public School**	(92.2%)

WORK EXPERIENCE

Open Source Contributor at GSSOC'24   10 May - Present

– During my participation in GSSOC'24, I am serving as an open-source contributor, actively engaging in various projects. I have contributed in code, documentation, and bug fixes, collaborating with global teams to meet project requirements. Through code reviews and testing, I ensured the reliability of my contributions. Working remotely, I honed my communication and teamwork skills, while gaining valuable experience in open-source development practices and project management tools. My contributions will positively impact the open-source community and facilitate personal growth in software development and collaborations.

Internship Trainee at Bharat Intern   Jan 2024 - Feb 2024

PROJECTS

Amazon Clone   Deployed

I created an Amazon Clone project using HTML and CSS, highlighting my front-end abilities. Diligent coding produced visually attractive, responsive interfaces, incorporating features like product listings and checkout processes. This project reflects my precision and talent in crafting engaging user experiences, while refining my skills in HTML and CSS.

SKILLS

JAVA , C/C++ , Python , Data Structures & Algorithms , Database Management, SQL,Web Development
